

Curriculum vitae et studiorum

Prof. Emilio N.M. Cirillo

Roma, Tuesday 24th January, 2017

General informations

- Family name: Cirillo
- Name: Emilio Nicola Maria
- Nationality: Italian
- Marital status: married with two daughters
- Address: Dipartimento SBAI, via A. Scarpa 16, 00161 Roma, Italy
- Phone number: +390649766808
- E-mail address: emilio.cirillo@uniroma1.it
- ORCID: 0000-0003-3673-2054
- Working status: associate professor in Mathematical Physics at Dipartimento di Scienze di Base e Applicate per l'Ingegneria, Sapienza Università di Roma
- Spoken languages: italian, english, and french

Education

- PhD: “dottorato di ricerca in Fisica” (PhD in Physics) at Università degli Studi di Bari in 1997. Advisors: Prof. Enzo Olivieri (II Università di Roma Tor Vergata) and Dr. Giuseppe Gonnella (Università degli Studi di Bari). Title of PhD thesis: Aspetti statici e dinamici delle transizioni di fase: alcuni modelli e metodologie (Statical and dynamical aspects of phase transitions: models and methods).
- University: graduated summa cum laude in Physics at Università degli Studi di Bari in 1993. Title of “Laurea” thesis: Metastabilità e nucleazione: studio rigoroso di alcune dinamiche microscopiche (Metastability and nucleation: a rigorous study of some microscopic dynamics). Laurea thesis advisors: Professor Enzo Olivieri (Università di Roma Tor Vergata) and Professor Matteo Villani (Università degli Studi di Bari).
- High school: attended “Liceo Scientifico” (scientific high school) and passed the final examination with the maximum.

Fellowships

- October 1998: one year postdoc fellowship in the framework of the “European Union TMR Programme Project ERBF MRX CT 960075A” related to the “Stochastic Analysis and its Applications” network.
- October 1997: one year postdoc fellowship in the framework of the “European Union TMR Programme Project ERBF MRX CT 960075A” related to the “Stochastic Analysis and its Applications” network.
- November 1994: three years PhD fellowship at Università degli Studi di Bari.

Habilitations

- 2013, Full Professor national scientific habilitation in Mathematical Physics (01/A4).

- 2013, Associate Professor national scientific habilitation in Mathematical Physics (01/A4).

Achievements

- TU/e Eindhoven, ICMS (Institute for Complex Molecular Systems) international fellow (May – June 2014).

Positions

- October 2015: associate professor in Mathematical Physics, Sapienza Università di Roma.
- November 2000: “ricercatore universitario” (assistant professor) in Mathematical Physics, Università degli Studi di Roma “La Sapienza.”
- July 1999: two year researcher position at “II Università degli Studi di Roma – Tor Vergata”.
- October 1998: one year postdoc position at the Mathematics Department of the “Université Paul Sabatier de Toulouse.” Research activity carried out at “CMI – Université de Provence – Marseille.”
- October 1997: one year postdoc position at the Mathematics Department of the “Université Paris Sud.”

Visits abroad

- May–June 2014, Institute for Complex Molecular Systems (ICMS), TU/Eindhoven, The Netherlands.
- March 2013, Department of Mathematics, Utrecht e Department of Mathematics, Delft, The Netherlands.
- February 2012, “Stochastic Activity Month” a Eurandom, Eindhoven, The Netherlands.
- April 2010, Eurandom, Eindhoven, The Netherlands.
- January 2008, Eurandom, Eindhoven, The Netherlands.
- June 2007, Eurandom, Eindhoven, The Netherlands.
- September 2001, Physics Department, Theoretical Physics Division, Helsinki, Finland.
- February–March 2001, Physics Department, Theoretical Physics Division, Helsinki, Finland.
- Fall (autunno) 1996, Mathematics Department, Rutgers University, New Brunswick, NJ, US.

Academic activity outside Italy

- October 2012: opponent in the Committee for the PhD thesis “Metastability for low-temperature Kawasaki dynamics with two types of particles,” Alessio Troiani, Faculteit der Wiskunde en Natuurwetenschappen, Leiden University.
- August 2012: member of the Reading Committee for the PhD thesis “Metastability for low-temperature Kawasaki dynamics with two types of particles,” Alessio Troiani, Faculteit der Wiskunde en Natuurwetenschappen, Leiden University.

Academic activity

- Member of the Academic Senate of Sapienza Università di Roma, elected as representative of the associate professors of the scientific area, since november 2016.

- Member of the PhD Committee Meccanica Teorica e Applicata, Sapienza Università di Roma, since november 2007.
- Since September 2011, responsible of the computation server of the Mathematics Division of the Dipartimento di Scienze di Base e Applicate per l’Ingegneria, Sapienza Università di Roma.
- March 2012 – November 2013: member of the Sapienza Università di Roma Scientific Committee.
- Member of the Scientific Committee of the Mathematics Division of the Dipartimento di Scienze Applicate e di Base per l’Ingegneria from June 2011 to June 2012.
- Member of the Scientific Committee of the Mathematics Division of the Dipartimento di Metodi e Modelli Matematici per le Scienze Applicate from January 2010 to July 2010.
- 2003–2009 Coordinator of the “Dipartimento MeMoMat” committee supervising the information systems and the local area network of the department itself.

Board member

- September 2016: board member for a RTDB researcher position in Mathematical Physics at Università di L’Aquila, D.R. 861 - 2016 del 06-07-2016.
- September 2015: board member for the admission to the PhD school “Meccanica teorica e applicata”, DR. 2657/2015.
- Board member of the competition for a mathematical physics researcher position, Facoltà di Ingegneria, Università del Salento, D.R. n. 2659, 4th December, 2007.
- Board member of the competition for a computer technician, Università degli Studi di Roma “La Sapienza,” Gazzetta Ufficiale IV serie speciale n° 84, 3rd November, 2006.
- Board member of the competition for a mathematical physics researcher position, Facoltà di Scienze Matematiche Fisiche e Naturali, Università degli Studi Roma Tre, D.R. n. 570–2006, 9th March, 2006.

PhD students

- AA 2013–15: supervisor of the PhD thesis “On phase transitions in porous media under consolidation: analytic, rigorous and numerical results” by dott. Pietro Artale Harris.
- 2007: supervisor of the PhD thesis “Rigorous results on models of non equilibrium statistical mechanics” by dr. Cristian Spitoni, PhD school “Modelli e Metodi Matematici per la tecnologia e la società.”

Laurea students

- 2014: supervisor of the Laurea thesis “Meccanica Hamiltoniana ed equazione di Hamilton–Jacobi” by Antonio Agresti, Facoltà di Ingegneria, Corso di Laurea Ingegneria Meccanica, Sapienza Università di Roma.

- 2012: supervisor of the Laurea thesis “Moto di rotolamento di un solido giroscopico a piede circolare” by Fabrizio del Fabritiis, Facoltà di Ingegneria, Corso di Laurea Ingegneria Meccanica, Sapienza Università di Roma.
- 2011: supervisor of the Laurea thesis “Flussi di Stokes attraverso schiere periodiche di ostacoli” by Simone Severoni, Facoltà di Ingegneria, Corso di Laurea Ingegneria Meccanica, Sapienza Università di Roma.

Courses for graduated students

- 2014–15: “Statistical Mechanics,” Dottorato di Ricerca in Meccanica Teorica e Applicata, Sapienza Università di Roma.
- 2010–11: “Statistical Mechanics,” Dottorato di Ricerca in Meccanica Teorica e Applicata, Sapienza Università di Roma.
- 2007–08: “Statistical Mechanics,” Dottorato di Ricerca in Meccanica Teorica e Applicata, Università di Roma “La Sapienza.”

Courses for undergraduated students

- From 2008–09 to 2016–17: “Meccanica Razionale,” Laurea in Ingegneria Civile e Industriale, Sapienza Università di Roma, Latina.
- From 2013–14 to 2016–17: “Laboratorio di Meccanica Razionale,” Laurea in Ingegneria Civile e Industriale, Sapienza Università di Roma, Latina.
- 2013–14: “Laboratorio di Meccanica Analitica,” Laurea Magistrale in Ingegneria Meccanica, Sapienza Università di Roma.
- From 2004–05 to 2007–08: “Fisica Matematica,” Laurea Specialistica in Ingegneria Meccanica, Università di Roma “La Sapienza.”
- 2003–04: “Meccanica Razionale,” Corso di Laurea in Ingegneria Meccanica, Università di Roma “La Sapienza.”
- 2002–03: lectures for “Metodi matematici per l’Ingegneria,” Corso di Laurea in Ingegneria Civile, Università di Roma “La Sapienza.”
- 2001–02: “Meccanica Razionale,” Corso di Laurea in Ingegneria Meccanica e Aerospaziale, Università di Roma “La Sapienza,” Latina.
- 2001–02: “Metodi Matematici,” Corso di Laurea in Ingegneria Meccanica, Università di Roma “La Sapienza.”
- AA 2000–01: exercises for “Meccanica Razionale,” Corso di Laurea in Ingegneria Meccanica, Università di Roma “La Sapienza.”
- 2000–01: exercises for “Metodi Matematici per l’Ingegneria,” Corso di Laurea in Ingegneria Meccanica, Facoltà d’Ingegneria, Università di Roma “La Sapienza.”
- 2000–01 exercises for “Sistemi Dinamici” (Prof. G. Gentile), III Università di Roma.
- 1999–00: exercises for “Probabilità e Statistica” (Prof. F. Martinelli), III Università di Roma.

- 1999–00: exercises for “Sistemi Dinamici” (Prof. G. Gentile), III Università di Roma.
- 1996–97: exercises for “Fisca II” for Ingegneria Elettronica (Prof. G. Selvaggi), Politecnico di Bari.
- 1995–96: exercises for “Fisca II” for Ingegneria Elettronica (Prof. L. Guerriero), Politecnico di Bari.
- 1994–95: exercises for “Fisca II” for Ingegneria Elettronica (Prof. L. Guerriero), Politecnico di Bari.

Research associations

- Gruppo Nazionale di Fisica Matematica (GNFM) starting from 2000.
- Istituto Nazionale di Fisica Nucleare from 1994 to 1997.

Research projects

- 2014. Ricerche Universitarie Sapienza Università di Roma. “Modelli matematici per il moto di individui interagenti”.
- 2012. Visiting project Sapienza Università di Roma, A. Muntean (TU/e, Eindhoven, The Netherlands), “Modelli matematici per l’evacuazione di una regione chiusa in assenza di visibilità.”
- 2009. Ateneo Federato di Scienza e della Tecnologia dell’Università degli Studi di Roma “La Sapienza”, “Aspetti dinamici delle transizioni di fasi in sistemi continui e di spin.”
- 2008. Ateneo Federato di Scienza e della Tecnologia dell’Università degli Studi di Roma “La Sapienza”, “Aspetti dinamici delle transizioni di fasi in sistemi continui e di spin.”
- 2007. Ateneo Federato di Scienza e della Tecnologia dell’Università degli Studi di Roma “La Sapienza”, “Dinamiche stocastiche per sistemi di particelle e di spin.”
- 2006. Facoltà d’Ingegneria dell’Università degli Studi di Roma “La Sapienza”, “Dinamiche stocastiche per sistemi di particelle e di spin.”
- 2005. Facoltà d’Ingegneria dell’Università degli Studi di Roma “La Sapienza”, “Dinamiche stocastiche per sistemi di particelle e di spin.”
- 2004. Facoltà d’Ingegneria dell’Università degli Studi di Roma “La Sapienza”, “Sistemi a finiti e infiniti gradi di libertà.”
- 2003. Facoltà d’Ingegneria dell’Università degli Studi di Roma “La Sapienza”, “Sistemi a finiti e infiniti gradi di libertà.”
- 2002. Università degli Studi di Roma “La Sapienza”, “Gruppo di Rinormalizzazione e Metastabilità nei Modelli di Spin.”
- 2001. Gruppo nazionale per la Fisica Matematica (GNFM), “Aspetti statici e dinamici della transizioni di fase.”

Participant to research projects

- 2015. Grandi Ricerche Universitarie Sapienza. “Asymptotics of inhomogeneous diffusion problems.” Coordinator: prof. D. Andreucci.
- 2012. PRIN “Problemi matematici in teoria cinetica e applicazioni” (36 months). Coordinator: prof. Mario Pulvirenti.
- 2011. Stochastic Theoretical and Applied Research proposal 2011, Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO) project. “Metastable and cut-off behavior of stochastic processes.” Principal investigator: F.R. Nardi.
- 2011. Ateneo di Sapienza Università di Roma denominato “Low Dose Positron Emission Tomography;” coordinator: Prof. Riccardo Faccini.
- 2011. Ricerca Universitario di Sapienza Università di Roma, “Sistemi dinamici classici e quantistici.” Coordinator: Prof. Carlo Marchioro.
- 2010. Ricerca Universitario di Sapienza Università di Roma, “Evoluzione deterministica e stocastica di sistemi a molte componenti in fisica matematica ed applicazioni.” Coordinator: Prof. Carlo Boldrighini.
- 2009. PRIN “Analisi asintotiche di sistemi classici e quantistici nelle Teorie Cinetiche” (24 months). Coordinator: prof. Mario Pulvirenti.
- 2009. Ateneo Federato di Scienza e della Tecnologia dell’Università degli Studi di Roma “La Sapienza”, “Modelli continui per materiali eterogenei: applicazioni allo studio di mezzi porosi e fratturati.” Coordinator: dott. Giulio Sciarra.
- 2009. Ricerca Universitario Sapienza Università di Roma “Comportamento macroscopico di sistemi a molte componenti.” Coordinator: Prof. Carlo Boldrighini.
- 2008. CNR, “Modelli poromeccanici dei processi di liquefazione dei suoli.” Coordinator: dott. Giulio Sciarra.
- 2008. Ricerca Universitario Sapienza Università di Roma, “Sistemi a molte componenti con evoluzione deterministica e stocastica.” Coordinator: Prof. Carlo Boldrighini.
- 2008. Grandi attrezzature Sapienza Università di Roma, “Infrastrutture di rete e macchine per il calcolo scientifico.” Coordinator: Prof. Romano Scozzafava.
- 2007. Ricerca Universitario Sapienza Università di Roma, “Sistemi a molte componenti con evoluzione deterministica e stocastica.” Coordinator: Prof. Carlo Boldrighini.
- 2006. Ateneo dell’Università degli Studi di Roma “La Sapienza”, “Sistemi a molte componenti con evoluzione deterministica e stocastica (continuazione).” Coordinator: Prof. Carlo Boldrighini.
- 2006. PRIN, “Comportamento cinetico ed idrodinamico di sistemi complessi classici e quantistici” (24 months). Coordinator: Prof. Carlo Cercignani.
- 2005. Ateneo dell’Università degli Studi di Roma “La Sapienza”, “Sistemi a molte componenti con evoluzione deterministica e stocastica.” Coordinator: Prof. Carlo Boldrighini.

- 2005. Grandi attrezzature dell’Università degli Studi di Roma “La Sapienza”, “Cluster per il calcolo e dispositivi di rete.” Coordinator: Prof. Alessandro Bichara.
- 2004–05. PRIN, “Sistemi a numero infinito di gradi di libertà classici, quantistici, stocastici” (24 months). Coordinator: Prof. Giovanni Jona Lasinio.
- 2004. Progetto d’Ateneo dell’Università degli Studi di Roma “La Sapienza”, “Metodi matematici per lo studio di proprietà macroscopiche.” Coordinator: Prof. Vincenzo Nesi.
- 2003. Progetto d’Ateneo dell’Università degli Studi di Roma “La Sapienza”, “Equazioni alle derivate parziali classiche e stocastiche in teoria dei materiali compositi, biomatematica, meccanica classica dei continui e meccanica quantistica.” Coordinator: Prof. Vincenzo Nesi.
- 2002. PRIN, “Sistemi dinamici classici, quantistici e stocastici” (24 months). Coordinator: Prof. Giovanni Jona Lasinio.
- 2002. Ateneo dell’Università degli Studi di Roma “La Sapienza”, “Metodi asintotici in equazioni alle derivate parziali” (C26A018988). Coordinator: Prof. Vincenzo Nesi.
- 2001. Ateneo dell’Università degli Studi di Roma “La Sapienza”, “Metodi asintotici in equazioni alle derivate parziali in dimensione finita o infinita” (C26A018988). Coordinator: Prof. Gianfausto dell’Antonio.
- 2001. Progetto della Facoltà d’Ingegneria dell’Università degli Studi di Roma “La Sapienza”, “Operatori di aggregazione, integrali monotoni, misure fuzzy” (C26F015751). Coordinator: Prof. Pietro Benvenuti.
- 2000–01. MIUR, “Sistemi dinamici classici, quantistici e stocastici.” Coordinator: Prof. Giovanni Jona Lasinio.
- 1998–99. MURST, “Studio di sistemi dinamici classici, quantistici e stocastici con i metodi della fisica teorica, della fisica matematica e della simulazione numerica.” Coordinator: Prof. Giovanni Jona Lasinio.
- Eurandom, Eindhoven, The Netherlands, June 10th, 2013, “Metastable behavior of reversible Probabilistic Cellular Automata.”
- Department of Mathematics, Delft, The Netherlands, March 20th, 2013, “Multiple metastable states in Blume–Capel mode.”
- Analysis, modeling, and simulation of collective dynamics: from bacteria to crowds, July 9 – 13, 2012, CISM, Udine, Italy. “A lattice model for the dynamics of pedestrians in regions with no visibility.”
- The expanding art of expansions, February 14 – 17, 2012, Eurandom, Eindhoven, The Netherlands. “Graded Cluster Expansion.”
- Mathematics and ICMS seminar on particle systems, Department of Mathematics and Computer Science, February 10th, 2012, TUE, Eindhoven, The Netherlands. “Monte Carlo study of gating and selection in potassium channels.”
- Marc Kac Seminar, February 3rd, 2012, Utrecht, The Netherlands. “Metastable states in Probabilistic Cellular Automata.”
- Sviluppi recenti in fisica matematica, 11–12 febbraio 2009, L’Aquila. “Stati metastabili in competizione in un automa cellulare probabilistico.”
- SIMAI 9th Congress, 15th September, 2008, Roma, Italy. “Competitive nucleation in metastable systems.”
- Eurandom, January 10th, 2008, Eindhoven, The Netherlands, “Metastable behavior of reversible Probabilistic Cellular Automata with self–interaction.”
- Eurandom, June 12th, 2007, Eindhoven, The Netherlands, “Decay of correlations in disordered systems.”
- Meeting Phasenübergänge, June 20th – 26th, 2004, Oberwolfach (Germany). “Graded cluster expansion for renormalized systems.”
- Assemblea scientifica G.N.F.M., 17–19 Febbraio 2003, Montecatini. “Gruppo di rinormalizzazione e sistemi disordinati.”
- Dynamical Systems: Classical, Quantum and Stochastic, September 14 – 19, 2002, Serra degli Alimini, Otranto, Italy. “Disordered systems and weak gibbsianess of renormalized measures.”
- Ciclo di seminari di Fisica Matematica, Dipartimento di Matematica, Università degli studi di Roma “Tor Vergata”, 18 Febbraio 2002, “Misure di Gibbs e Gruppo di Rinormalizzazione.”
- Ciclo di seminari INFN, Dipartimento di Fisica, Università degli studi di Bari, 29 Gennaio 2002, “Misure di Gibbs e Gruppo di Rinormalizzazione.”
- Seminars of the Theoretical Physics Division, University of Helsinki, 22th March, 2001. “Metastability in spin systems and Probabilistic Cellular Automata.”
- Dipartimento di Matematica, Università L’Aquila, L’Aquila, Gennaio, 2000, “Percolazione ricorsiva in tre dimensioni.”

Conference organization

- Member of the Organizing Committee of the workshop “Probabilistic/Synchronous/Random Cellular Automata”, 10–14 June 2013 at Eurandom (TU Eindhoven, Mathematics and Computer Science Department), Eindhoven, The Netherlands.
- Organizer of the Minisimposio “Phase transitions and growth phenomena” at SIMAI 2010, June 21, 2010 – June 25, 2010, Cagliari.

Invited talks

- Mathematics of kinetically constrained dynamics and metastability, 4 – 8 January 2016, Warwick, UK. “Exit time in presence of multiple metastable states.”
- Institute for Complex Molecular Systems, Eindhoven, The Netherlands, June 17th, 2014, “Effects of cooperation on pedestrian motion in dark.”

- Mathematics Department, Imperial College, London, May 22nd, 1999, “Finite size scaling in three dimensional bootstrap percolation.”
- Séminaires de Probabilité, Marseille, 2 Avril 1999, “Three dimensional bootstrap percolation: the finite size scaling.”
- Ciclo di seminari INFN, Bari, Dicembre 1998, “Effetti di scala finita in un modello di bootstrap percolation.”
- Macroscopic stochastic fluctuations: Equilibrium and non-equilibrium, September 9 – 15, 1998, Vulcano, Italy. “Finite size scaling in three dimensional bootstrap percolation.”
- Séminaires de Probabilité, Marseille, 22 Mai 1998, “Metastable states in finite volume spin systems.”
- Ciclo di seminari INFN, Bari, 12 Maggio 1998, “Metastabilità nei modelli di spin e negli Automi Cellulari Probabilistici.”
- Séminaires de Probabilité et Statistique, Orsay (Paris), 5 Mars 1998, “Competing metastable states.”
- Inhomogeneous random systems, non-gibbsian states, Wulff shapes, 28 – 29 January 1997, Ecole Polytechnique, Palaiseau, Paris, “Metastability in the Ising Model with free boundary conditions.”
- Workshop I.N.d.A.M. “Mathematical problems in the statistical mechanics of interfaces”, 9 – 15 June 1996, Cortona (Ar), Italy, “Competing metastable states.”
- Ciclo di seminari INFN, Bari, 5 Giugno 1996, “Stati metastabili in competizione.”
- Convegno informale di Meccanica Statistica, 23 – 24 Giugno 1995, Parma, “Meccanismi di nucleazione della fase stabile nel modello di Blume–Capel.”

Editing activity

- Reviewer and referee for several scientific journals.
- Translation from English to Italian: Neil A. Weiss, “Calcolo delle probabilità” (Pearson Education Italia, 2008).
- Editing: John R. Taylor, “Meccanica classica” (Zanichelli, Bologna, 2006).
- Editing: Herbert Goldstein, Charles Poole, John Safko, “Meccanica classica,” terza edizione (Zanichelli, Bologna, 2005).
- Translation from English to Italian: Douglas C. Giancoli, “Fisica” (CEA, Milano, 2006).
- Translation from English to Italian: D. Halliday, R. Resnick, K.S. Krane, “Fisica,” volume I (CEA, Milano, 2002).
- Translation from English to Italian: Behrouz A. Forouzan, “I protocolli TCP/IP” (Mc Graw – Hill, Milano, 2001).

Bibliometrics (January 2017)

- Isi Web of Science: number of records 62, number of citations 481, number of citations per year 21.86, h-index 14.
- Scopus: number of records 59, number of citations 492, number of citations per year 22.36, h-index 14.

- Google scholar: number of citations 834, h-index 15.

Research activity and list of publications

Prof. Cirillo’s research activity mainly deals with Statistical Mechanics, Interacting Particle Systems, Porous media, and Cellular Automata.

Topic: Carbon nanotube WIMP detectors

Keywords: WIMP, billiards, Random Walk, carbon nanotubes

Collaborators: G. Cavoto (Sapienza), F. Cocina (Sapienza), J. Ferretti (Sapienza), A.D. Polosa (Sapienza)

Publications: [3]

Topic: Cooperative effects on particle currents

Keywords: Random Walk, Simple Exclusion, motion in dark, crossing time. measure theory, diffusive and ballistic scalings

Collaborators: R. van Santen (ICMS Eindhoven), A. Muntean (Karlstads), O. Krehel (ICMS Eindhoven), A. Sengar (ICMS Eindhoven), M. Böhm (Bremen), M. Colangeli (L’Aquila)

Publications: [4, 6, 13, 18, 21, 63]

Topic: Voltage–current curves in ionic channels

Keywords: ionic channel, potassium channel, random walk, diffusion

Collaborators: D. Andreucci (Sapienza), S. Marconi (Sapienza), D. Bellaveglia (Sapienza)

Publications: [15, 16, 25, 64, 66]

Topic: Growth models

Keywords: percolation, bootstrap percolation, diffusion limited aggregation (DLA)

Collaborators: R. Cerf (ENS, Paris), A. Asselah (Paris XII), E. Scoppola (Roma 3), B. Scoppola (Roma 2)

Publications: [9, 43]

Topic: Metastability

Keywords: metastable states, Metropolis, reversible systems, Freidlin–Wentzel theory, cycle theory

Collaborators: F.R. Nardi (TU/e, Eindhoven), J. Sohier (TU/e, Eindhoven)

Publications: [7, 14, 19]

Topic: Metastability in spin models

Keywords: lattice spin systems, metastability, large deviations, tunneling

Collaborators: E. Olivieri (Roma 2), J.L. Lebowitz (Rutgers), F.R. Nardi (TU/e, Eindhoven), C. Spitoni (Utrecht)

Publications: [19, 40, 57, 67]

Topic: Metastability in Probabilistic Cellular Automata (PCA)

Keywords: PCA (Probabilistic Cellular Automata), metastability, large deviations, tunneling

Collaborators: J.L. Lebowitz (Rutgers), E. Speer (Rutgers), F.R. Nardi (TU/e, Eindhoven), C. Spitoni (Utrecht)

Publications: [28, 29, 38, 45, 70, 71]

Topic: Equilibrium properties of Probabilistic Cellular Automata

Keywords: PCA (Probabilistic Cellular Automata), equilibrium, Mean Field, Cluster Variation Method

Collaborators: F.R. Nardi (TU/e, Eindhoven), A.D. Polosa (Sapienza), P.-Y. Louis (Poitiers), W. Ruszel (Delft), C. Spitoni (Utrecht)

Publications: [17, 41]

Topic: Second gradient theory for porous media and gels

Keywords: second gradient, continuum mechanics, porous media, Biot theory, phase transitions, interfaces, variational methods, dynamical systems

Collaborators: N. Ianiro (Sapienza), G. Sciarra (Sapienza), P. Artale Harris (Sapienza), P. Nardinocchi (Sapienza), A. Muntean (Karlstads)

Publications: [5, 8, 10, 20, 22, 26, 27, 68]

Topic: Entropic effects in doped polymer swelling

Keywords: polymers, teflon, gold nanoparticles doping, Flory–Huggins theory, swelling, acetone detector

Collaborators: A. Convertino (CNR), A. Capobianchi (CNR), A. Valentini (Bari), A. Bassi (Bari), N. Cioffi (Bari), L. Torsi (Bari)

Publications: [36, 37, 39]

Topic: Disordered systems in Griffiths’ phase

Keywords: disordered systems, Griffiths’ phase, Cluster Expansion

Collaborators: E. Olivieri (Roma 2), L. Bertini (Sapienza), R. Greenblatt (Sapienza)

Publications: [30, 31, 33, 35, 69, 72]

Topic: Renormalization group

Keywords: Renormalization group, fixed point, convergence, pathologies, gibbsianity

Collaborators: E. Olivieri (Roma 2), L. Bertini (Sapienza)

Publications: [31, 33–35, 44, 51]

Topic: Defect free surface models

Keywords: lattice models for surfaces, spin models, Cluster Variation Method, Mean Field, superantiferromagnetic and lamellar phases, Renormalization group, Kadanof transformation

Collaborators: G. Gonnella (Bari), M. Troccoli (Bari), D. Johnston (Edinburgh), A. Maritan (Padova), A. Pelizzola (Torino)

Publications: [47, 50, 53, 54, 59]

Topic: Growth and persistence exponents

Keywords: continuous phase transition, spinodal decomposition, growth exponent, persistence exponent, Monte Carlo, shear

Collaborators: G. Gonnella (Bari), S. Stramaglia (Bari), G.P. Saracco (La Plata)

Publications: [32, 46, 49, 52, 58]

Topic: Crumpling transition in polymerized surfaces

Keywords: folding, crumpling, polymerized surfaces, Cluster Variation Method

Collaborators: G. Gonnella (Bari), A. Pelizzola (Torino)

Publications: [23, 42, 55, 56]

Topic: Exotic tetraquark

Keywords: tetraquark, random matrices, Wigner distribution

Collaborators: M. Mori (Sapienza), A.D. Polosa (Sapienza)

Publications: [24]
