Special issue for **SMART 2017** in

Journal of Computational and Applied Mathematics

ELSEVIER

The *Journal of Computational and Applied Mathematics* publishes original papers of high scientific value in all areas of computational and applied mathematics. The main interest of the Journal is in papers that describe and analyze new computational techniques for solving scientific or engineering problems. Also the improved analysis, including the effectiveness and applicability, of existing methods and algorithms is of importance. The computational efficiency (e.g. the convergence, stability, accuracy, ...) should be proved and illustrated by nontrivial numerical examples. The audience consists of: applied mathematicians, numerical analysts, computational scientists and engineers.

As an international journal, JCAM is published in a timely fashion in printed and electronic forms

Call For Papers --- Special Issue for SMART 2017

We encourage submissions of **full version, journal quality papers** that have been accepted as abstracts for SMART 2017. All camera-ready papers should be maximum 15 pages long (with the exception of papers which were presented at the SMART 2017 conference by an invited speaker which can be maximum 20 pages long). The manuscript should be submitted as a doc, latex or pdf file to JCAM through the EES system, with
"Article Type" SI:SMART 2017 in the submission process.
The submission website for this Special Issue is located at: http://ees.elsevier.com/jcam/
You are then expected to receive a formal confirmation within one week since the submission, if not, please enquiry the guest editors. All submissions will be peer reviewed according to the procedure of the journal.

Important Dates:

Submission opening: **November 10th, 2017**
Submission deadline: **February 28th, 2018 extended to March 16th, 2018**
Acceptance deadline(*):   **September 30th , 2018**

(*)the date by which all manuscripts should be fully reviewed and the final decisions made; those papers that missed the deadline may be excluded and if accepted can be published at a later date.

For manuscript preparation please refer to GUIDELINES FOR CONTRIBUTORS for the journal at webpage:
http://www.elsevier.com/journals/journal-of-computational-and-applied-mathematics/0377-0427/guide-for-authors
