

Publicazioni di Paola Loreti (2005-2008)

P. Loreti and M. Mehrenberger, An Ingham type proof for a two-grid observability theorem, to appear in ESAIM: Control, Optimisation and Calculus of Variations .

F. Camilli, P. Loreti, Comparison results for a class of weakly coupled systems of eikonal equations, to appear in Hokkaido Mathematical Journal

V. Komornik, P. Loreti, Expansions in complex bases. *Canad. Math. Bull.* 50 (2007), no. 3, 399–408.

V. Komornik, P. Loreti, Semi-discrete Ingham-type inequalities. *Appl. Math. Optim.* 55 (2007), no. 2, 203–218.

V. Komornik, P. Loreti, On the topological structure of univoque sets. *J. Number Theory* 122 (2007), no. 1, 157–183.

P. Loreti, B. Rao, Optimal energy decay rate for partially damped systems by spectral compensation. *SIAM J. Control Optim.* 45 (2006), no. 5, 1612–1632

Y. Fujita, H. Ishii, P.Loreti, Asymptotic solutions of Hamilton-Jacobi equations in Euclidean n space. *Indiana Univ. Math. J.* 55 (2006), no. 5, 1671–1700.

F. Camill, P. Loreti, A Zubov’s method for stochastic differential equations. *NoDEA Nonlinear Differential Equations Appl.* 13 (2006), no. 2, 205–222.

Y. Fujita, H. Ishii, P.Loreti, Asymptotic solutions of viscous Hamilton-Jacobi equations with Ornstein-Uhlenbeck operator. *Comm. Partial Differential Equations* 31 (2006), no. 4-6, 827–848.

P. Loreti, On some gap theorems. *European women in mathematics—Marseille 2003*, 39–45, *CWI Tract*, 135, Centrum Wisk. Inform., Amsterdam, 2005.

H. Ishii, P.Loreti, Limits of solutions of p -Laplace equations as p goes to infinity and related variational problems. *SIAM J. Math. Anal.* 37 (2005), no. 2, 411–437.

P. Loreti, M. Pedicini, An object-oriented approach to idempotent analysis: integral equations as optimal control problems. *Idempotent mathematics and mathematical physics*, 187–208, *Contemp. Math.*, 377, Amer. Math. Soc., Providence, RI, 2005.

V. Komornik, P. Loreti, *Fourier series in control theory*. Springer Monographs in Mathematics. Springer-Verlag, New York, 2005.
